Subject: Brendan McNamee – Hydronic Systems Specialist

For Immediate Release:

Delval Equipment is pleased to introduce Brendan McNamee as the most recent addition to our sales team. Brendan will fill the newly created role of *Hydronic Systems Specialist*. *This position focuses on heating boilers and domestic hot water systems.* Brendan will handle our [Cleaver Brooks ClearFire](#) hot water boilers, the [Camus Hydronics](#) line and [IntelliHot](#) tankless domestic hot water systems. As our market continues to evolve and more customers are focusing on hydronics solutions, we want to insure that we have dedicated adequate personnel to this sector of the market. Brendan will deal EXCLUSIVELY within the hydronics market, bringing our hydronics customers his full focus and attention.

Brendan comes to us with great experience in both the HVAC market where he worked on heating, cooling and controls projects and the boiler market where he spent over a decade in the rental boiler industry, primarily working with steam, hot water and domestic hot water equipment. Many of our customers have already worked with him in these capacities and we're happy to have him as a part of our team. He will focus on the southern New Jersey and northern Delaware areas and will likely be reaching out to you in the coming weeks to introduce himself personally and determine how Delval can help address your hydronics and domestic hot water requirements.

Brendan is a proud Penn Stater, an avid Flyers fan and brings his wife Amy and their two young children into the ever growing Delval Equipment family.

You can contact Brendan by e-mail at BMcNamee@Delval.com. He can be reached by telephone at 610-275-3599, ext. 339 or directly on his mobile phone at 484-685-2822. LinkedIn users will find his profile [HERE](#), where he is very active and will supply your timeline with lots of useful information.

Please join us in welcoming Brendan to the Delval Equipment team. We look forward to working together to address your hydronic systems needs now and in the future.
